Comments for Public Posting: Please sign the Plant Based Treaty. It is vital for both the welfare of the planet, as well as of animals, whom in this day and age, we should not be enslaving, oppressing and killing against their will. The planet needs is to take action, now!

Comments for Public Posting: California is the safe keeper of much of our nation's most cherished & irreplaceable biodiversity. Animal agriculture is a leading cause of biodiversity loss. As the number one dairy producer in the U.S, more of drought-stricken California's water is used for producing dairy products than any other activity in the state. Please endorse a Plant-based treaty. You have a opportunity to be a leader in this environmental movement. To save water is to save lives. Stay beautiful, California.

Comments for Public Posting: How wonderful is Los Angeles Council for putting forward support for the Plant-Based Treaty! This shows your clear-sightedness, your concern for the environment and your love for your citizens. I trust that this Resolution will be voted for, making Los Angeles a leading example for other Councils.

Comments for Public Posting: Worldwide Vegan is the only Way to stop Global warming and heal the Earth, everyone can participate the help of saving the Earth by just changing to Vegan lifestyle, stop killing animals for food. Vegan is good for health being and health of planet environment. I absolutely support LA council on signing the Plant base treaty.

Comments for Public Posting: Please sign this necessary plant-based treaty for the sake of our planet, the only home we have. If Los Angeles leads the way that would encourage other cities and counties in California to do the same. Please do the right thing for your citizens, for the non-human animals on this planet and for Mother Earth, there is no plan B.

Comments for Public Posting: A big, loud YES to L.A. to endorsing the Plant-Based Treaty. What a bold and necessary big step, and a great example for other cities -- and people and nations -- to follow. Raising and eating animals, especially cows/beef/dairy, is a/the leading driver of global heating. And eating less/little (and eventually very little or no) beef & dairy (and all animals) is such an easy step for people to take to massively reduce their climate impact. Go Los Angeles! Leading the way, shining a beacon of hope for the rest of America, and the world, to make the future a survivable one.

ANIMAL AGRICULTURE IS THE LEADING CAUSE OF:

**GLOBAL WARMING
WATER POLLUTION
OCEAN DEAD ZONES**

**SPECIES EXTINCTION
ANIMAL SUFFERING/DEATH
RAINFOREST DESTRUCTION**

COWSPIRACY

THE SUSTAINABILITY SECRET

Comments for Public Posting: I urge you to please endorse the Plant Based Treaty. Please be an exemplar to the country and the world, do the right thing, be the responsible voice - for the future of our children on this planet, do the right thing by them, by all of us, and by all the other species we share this planet with. Endorse the Treaty before it is too late. Thank you.
