### Content

Remembering every single brand and item consumed that I liked is hard. However, listing them all helps out one find the 'good stuff' without much effort. What're some of your [secret] favorites that others should know about?

I did the hard work for you, so when you eat vegan, it's the best! No excuses.

I'd put banza, annies, amy's, tattoed chef, etc., but they're not vegan.

Excellent linked list Brit!

In cheeses [Nour](#) 's company Les Nouveaux Affineurs are my favoriite, genuine French cheeses, there is nirhing else like them !

Hopefully the [Bryony Tinn-Disbury](#) will soon get her jackfruit slices sellibg in US stores and on pizzas for you to try.

For mayonnaise the French brand The Good Spoon has winderful light and creamy mayo and sauces.

In ice cream try [Chris Conklin](#) 's Perfect World Ice Cream which is sold in UK and Europe.

[Nick Watkins](#) and his brother [Tom Watkins](#) formed Mightu Pea to take on the dairy drinks market with a genuine alternative to cow's milk.

I didn't even know about these! French food is great in general, and turns out, vegan French food is too (judging from this video: <https://www.youtube.com/watch?v=WYrENpWGnZw>).
