### Content

"Increasing hedgerows – which soak up carbon and protect against flooding – by 40% could create 25,000 jobs, new data has revealed.

The Countryside Charity (formerly known as the Campaign to Protect Rural England) said new research conducted by the Organic Research Centre on its behalf found that growing more hedgerows would result in 25,000 more jobs in hedgerow planting and maintenance in both rural and urban areas."
