**Council File No:** 22-0002-S118

**Comments for Public Posting:** I strongly endorse the Plant Based Treaty, which is a measurable step toward protecting our ecosystems, mitigating the climate crisis, and lessening the suffering of millions of farmed animals. This is a historic opportunity for City Council to endorse a resolution that would set a precedent for large cities across the nation and world. The Plant Based Treaty encourages a shift to healthier, more sustainable plant-based diets and lifestyles, which is beneficial to humans, farmed animals, and the environment. I strongly encourage the City Council to endorse this Treaty. Thank you.
