we need more-eco cryptomining so we don't go back to oil again:

#### Exactly How Bad Is Bitcoin For The Environment? | Answers With Joe

"Toronto-based personal light electric vehicle (LEV) producer [Daymak](#) plans to launch a cryptocurrency-mining car that will allow owners to make money when parked, plugged in, or wireless charging.

The car, known as the [Spiritus](#), is a three-wheeled all-electric vehicle able to seat two adults aimed at being a daily commuter "designed with the track in mind," according to Daymak's website. The base model Spiritus Deluxe has a top speed of over 85 mph, a 0-to-60 time of 6.9 seconds, and a range of 180 miles. The upgraded sport model Spiritus Ultimate has a top speed of over 130 mph, a 0-to-60 time of 1.8 seconds and a range of 300 miles."
