

What would it take to become Iron Man?

Background

A lot, judging by watching Iron Man 1-3 and Avengers. A lot of people try to recreate the suit in reality (like on [Savage Builds](#) and various [people](#) on YouTube). However, this discussion looks a little more in-depth to see what it really takes to get a person to become a realistic Iron Man in person. It's not just about the suit, but the whole picture.
