

Why do people come to Kialo?

2 2 0 1 56

Background

People from all walks of life have a specific purpose for why they arrive here and also what they expect to see happen on Kialo and from it. What's your reason and/or why do you think other people come to Kialo?

This is kind of a 'welcome' debate where people get to learn from each other.

A suggestion for writing the pros/cons underneath would be for why Kialo should or shouldn't be used for the purposes listed here.
