Truly vegan (not oil, which the process isn't) products aren't

Supply issues are creating shortages for:

- Cream cheese
- Ham
- Cat/dog food
- Chicken tenders
- Lunchables
- Cranberry sauce - contains sugar or HFCS (corn syrup), which some may consider not to be vegan
- alcohol - not all brands are vegan

If we're going to avoid supply chain issues, we, as a society, really should focus on consuming whole vegan foods.
