'Meat' soaring prices if you haven't already!

"Households are facing a 40-year-high in inflation, which has put heavy political pressure on the Biden administration ahead of the midterms."

"Ground beef was up 22 percent in March since last year, steak and sirloin were up 27 percent, and sliced bacon was up 26 percent. In January, the White House wrote that "meat and poultry prices [are] now the [single largest contributor](#) to the rising cost of food people consume at home."
