The Vegan Museum opened on February 1, 2017; the first museum of its kind in the *world*. It has been displayed in over 30 institutions across Chicago, moving to a different venue every 2-3 months, to stay accessible and attract new visitors. The Vegan Museum has hosted 44 events, 26 speakers, 8 food demos, 7 documentaries, 2 [story map](#) presentations, and 1 children's book reading!

The exhibit consists of 12 large panels, which guide the viewer through (vegan!) bite-sized pieces of information about vegan history, across time and culture. Walk-throughs and events are free to attend, yet we greatly appreciate any donations to TVM. Our mission is to continually discover and share this amazing, ongoing historical movement.

Located in - Illinois. Legler Library - 115 S Pulaski Rd, Chicago, IL 60624

Feel free to donate, as this is a free museum: <https://veganmuseum.org/donate>
