- Note:**
- Will be updated over time as I find them and channels are created
 - Although this is a list of channels that are vegan, many videos will not be vegan-specific. One should always verify, through external research, accuracy of these to form one's own opinions if not ignore it completely altogether.
 - Channels with less than 10 videos are less likely to be listed
 - The credits for the youtube channels that others gave me are in the comments section. If they listed something and it's on the youtuber list, it's from them, not me - unless I mentioned I added it before they let me know about it.
 - **Legend:**
 - Contain meat commercials - asterisk: *
 - Foreign languages or notes - parentheses: ()
 - **What's not here:**
 - Vegan channels with most videos not related to veganism in particular
 - Ex-vegans. This list is for those that are 100% vegan throughout the entire channel

Sorry for the inconvenience, but the list is getting too big/long for this post to load in the web browser, so I put it into a file to download. :) However, what's nice now is that you can see more! If there're issues with opening the excel, feel free to download an excel viewer, upload to onedrive, and/or right click on properties and check 'unblock' and 'apply' to be able to see it.

over 200 views! So glad and awesome everyone - I added more youtubers to the list, especially raw vegan and health conditions healing - which kind of makes sense if you think about it. If veganism get more popular, then raw veganism should too. Also if more people are getting health issues and are finding new avenues to fix them and find veganism helps...

wow - almost 200 views and 20 shares! I just wanted to say that I updated the list and added way more in plenty of categories with more categories as well! I continue to expand this list as more vegan youtubers emerge, but I'm so fortunate that I'm catching up with the ones already there, yay!

Wow. The Vevolution will be Youtubed 🙌 great list. The Happy Pear are a jolly duo. Irish Vegan chefs and health gurus. Courses available too. <https://m.youtube.com/user/happypeargreystones> Could i suggest Libetated Animal Sanctuaries? They do such selfless great work. Websites and Facebook mainly. Which you may have elsewhere? If not. Here goes Beneath the Woods UK <https://beneaththewoodsanctuary.co.uk> Eden Farm Sanctuary Ireland <https://edenfarmedanimalsanctuary.com> My Lovely Pig Rescue Ireland https://m.facebook.com/profile.php?id=105053117596083&ref=content_filter Back into Daylight Sanctuary Ireland <https://m.facebook.com/BackIntoDaylightAnimalSanctuary/> To name a few. Thanks for all the lists. 🙌

I didn't see Liberated Animal Sanctuaries anywhere on Youtube, but I got the rest. Pretty cool - nice that it's all localized - I can't figure that out on my own. I could see Ireland having a lot of sanctuaries - there are a lot of animals per square space for sure!

fantastic work, brittany! here's one for the list: Ryan Humiston <https://www.youtube.com/c/RyanHumiston> who is vegan for the animals and is upfront about it too!

I don't know much and the videos didn't seem to be much about veganism - so I'd have to look more to see about adding it.

Here's ours. Would love to know what you think. We have a new Sentientism podcast too - maybe another list to consider?

I personally don't believe that veganism is based on sentientism, as then there's the argument of whether or not all animals are sentient, like oysters. The thing is, we should express consideration for all life, regardless of sentience, because their life exists and should be given respect and regard, just like our lives. But that's me. It's still cool and I'll add it in if it's vegan.

It's private and I removed my FB profile. I'm not sure the next step - maybe an excel or I create an FB profile? Thoughts?

Thanks. This list is really the tip of the iceberg, as it should be separated by travel vlog, bodybuilder, recipes, activism, etc.
