

@vegforlife Hii! I am new to Kialo so thank you so much for accepting my claims. Please let me know if I can help out more here!

tacocat (18) • 11mo

@tacocat I don't think I need additional claims. Idk if there's any more help. I think you wrote really nice claims and I appreciate it. You write a lot about neural networks. Outside of this discussion, since you know about neural networks, the only help I need would be for you to help me understand neural networks better if you don't mind and you're up for that.

You (8.8k) • 11mo

@vegforlife Yes of course! I would absolutely love to actually. Please let me know how would you like me to help?

@tacocat which neural network mimics the human brain the most?

You (8.8k) • 10mo

If there's not one that mimics the brain 100%, is there a way to mimic the human brain:

[www.](#)

[makhfi.com](#)

. Like have a neural network with neurons where each one waits on inputs to reach a threshold before processing it?

You (8.8k)
