@lunakana: @jeremias hi. I'm just creating a new discussion here. Does anyone want to help me out with it?

You (J.R.) - 2y

@jeremias thanks for improving this discussion

You (J.R.) - 2y

@veggfrills sure

tunakana (J.R.) - 2y

@veggfrills I'll give a hand sometimes, but won't make it a priority, as I already spend much time on Kiato

Jeremias (J.R.) - 2y

@jeremias I agree I feel you helped out a lot here and it's good to take a break (I think I spend too much time here lol)

You (J.R.) - 2y

@jeremias I'm going to stop Kiato when I reach my 20GB on my internet. That won't happen today, but could in the future. When that happens, I'll come back soon :)

You (J.R.) - 2y

@veggfrills @jeremias I just recently found Kiato and so far I'm really liking it. I haven't created a debate yet, still thinking on that, but I'm enjoying being part of others. :)

philosophia (J.R.) - 2y

@philosophia Nice to hear that :)

Jeremias (J.R.) - 2y

@philosophia Welcome! No worries, if you'd like, I created debates that are not really "viable" yet, as they have no claims, I also have others that have under 10 claims if you'd like to grow those too. Just options to help you delve into the site, not requirements.

You (J.R.) - 2y

@philosophia outside of that, if you need help creating a debate, let me know :)

You (J.R.) - 2y

@jeremias @veggfrills thanks so much! I stalked the site for a while to get a handle of how things are done. Seems easy now. :) I'll have to explore some other websites :)

philosophia (J.R.) - 2y

@philosophia welcome! Don't worry I only have 1 or 2 debates. I actually enjoy expanding on other people's ideas and its fun to see what debates have been created. :) For a newcomer, you've caught on quick! :D

tunakana (J.R.) - 2y

@philosophia I just wanted to point out something cool: if you add two more claims to the topic, you'll be the first person to have more claims than me in a discussion I created! Just an FYI!

You (J.R.) - 2y

@veggfrills wow really? I'll see what I can come up with :D

philosophia (J.R.) - 2y

@veggfrills think I did it :)

philosophia (J.R.) - 2y

@philosophia whoa, you did it! Congrats balloons everywhere, yayyy :)

You (J.R.) - 2y

@veggfrills haha thank! :) I should as Kiato for a ribbon...I see you've been quite busy here!

philosophia (J.R.) - 2y

@philosophia haha :). Yes I have for various reasons if you'd like to hear them, but I'll let you know anyway right now before I forget (you could cover them up lol if you don't want to see them)

1) I have lots of thoughts that really want to develop, but conceptualizing only goes so far

2) Sometimes I hear my voice is hard to be heard in other forums outside of Kiato (like how do I sign in/interact on other pro/con websites or say anything on tumblr in the format here?)

3) My ideas are missing within many people's thought processes and I see their ideas get based and go in the wrong direction without my help - so it's a responsibility/public good to present them and get people to rethink/better decisions on those choices

If you read through all this, thanks for reading it!

You (J.R.) - 2y

@veggfrills need it all! I understand that. Sometimes its challenging to have your ideas heard in normal discussion forms and social settings. At least here, all points are put on the table and its constructively discussed. I've had some of my own thoughts challenged here, but its opened me to looking from another perspective that I may not have otherwise done. :) Seems your in good company here

philosophia (J.R.) - 2y

@philosophia really glad :). I mean its not perfect, I've left certain discussions on this site due to closed-mindedness, but I work with the site to make it possible. At least there is opportunity to make changes, compared to other sites that are so big, there's no way I could help it out if there are inherent issues with it

You (J.R.) - 2y

@philosophia saying all this, is there any way I could help you with opportunities on the site, like unexplored parts of development and thought? Like, it would be helpful to make your profile's traits more visible to see where you like going to, but it's totally optional (since that's a privacy thing)

You (J.R.) - 2y

@philosophia I've been in a few discussions with @veggfrills and I can say your perspective definitely adds something unique and perhaps not really thought about or brought across by other users! :)

tunakana (J.R.) - 2y

@lunakana: thanks, I've realized my potential and brought it to action and appreciate you noticing and valuing it too :)

You (J.R.) - 2y

@veggfrills absolutely :)

tunakana (J.R.) - 2y

@philosophia I created a new discussion about whether first world problems are not as bad as third world problems. Is this something you would be interested in contributing to (I'd give you the link if you'd build it before everyone else sees). The creation is for anyone else too

You (J.R.) - 2y

@veggfrills I wouldn't mind taking a look to see if it interests me :)

philosophia (J.R.) - 2y

I don't see a link or option for viewing, but the topic is "are third world problems worse than first world ones"? Is this a discussion you'd like to be a part of creating?

You (J.R.) - 2y

I took a look. I can't say I'd be a good candidate for that one. But I'd be interested to see what else you create in the future. :)

philosophia (J.R.) - 2y

@philosophia I created more than that, it's just a long list that's hard to say all from

You (J.R.) - 2y

@veggfrills been busy here! Any other suggestions coming in?

tunakana (J.R.) - 2y

@lunakana: not really. I'm trying to create a discussion here that let everyone have a say in, because I tend to take over the ones I create where 95% of the claims are mine lol

You (J.R.) - 2y

@lunakana: if you really would like to help out here, maybe if you could create 20 claims (to rival my 10), then I'll look more evened out. I just surpassed the top 10 name!

You (J.R.) - 2y

@veggfrills @lunakana: I think we should start at top level. Getting a look at the debates, there are many claims that are just really long, containing more than one point in an attempt to explain it, which is a bit overwhelming. If some of these can be split, so that the extra becomes pros to help support, it can help balance the debate and make it easier to honestly create pros and cons for. What do you think?

philosophia (J.R.) - 2y

@philosophia that's fine. I tried to make this discussion one where I don't take over, so if someone would like to split the claims, I don't mind. I also tried to avoid as many claims as possible without question

You (J.R.) - 2y
