No one knows for sure and has never said yes, so it's unlikely to be that way (i.e. plants/fungi being conscious).

Hey @user219. I don't think the legal one good. I just searched my law as legal and nothing came up. I'm not sure what you mean by "Legal" in this context. Are you thinking of this could use "Philosophy" too. What do you think?

philosophy123 Incredibly, I don't search for discussions and do tag the wrong way (I use the words in the tag instead of the tag itself). Maybe I'll change it. Anyway, it's your call. I initially tagged that without the philosophy tag. But I thought philosophy wouldn't appear when I typed them in. So, I couldn't use that tag. Try them out and let me know what you think!

@user219 Not sure what I noticed. It seems if you tweak that tags it general category/ies. I noticed on the Philosophy tag, it's not listed. But, if I add it, it shows up as more related to Life and Science. I think the idea is that you can add as many tags as you want to a single category. Otherwise there would be no reason tags that are related to multiple categories. I'm not sure why though for science to think to search for it. I could be wrong, but I noticed a few decades I've been in here that philosophy is connected to most.

philosophy123 (HM, 1y)

@philosophy123 no problem. I'll add them in. It would be nice to create discussions in categories through this settings.

You (HM)

@user219 Ah, any insight what you used the tags? I think that is how, right?

philosophy123 (HM, 1y)

@philosophy123 Right. But my thoughts are for something better. @kialobot-poll

@user219 I can't see the link. Can you explain that?

philosophy123 (HM, 1y)

A discussion would be created (not a category). Like this could be in the science category, with biology as a subcategory. Then, the discussion would be about scientific logic. Like, My thought are: That they should fall under a category instead of sticking on a tag. Because, I'm not sure how many discussions a tag connects to in a category.

@user219 Ahhh. That's interesting. I wonder if that would be better. I'm not sure. I'll have to look at how I used the Religion and then overlapping into the Islam, Catholicism, etc., to find what you mean?

philosophy123 (HM, 1y)

@philosophy123 absolutely! I would be really looking to see the rationale formalized like that. It is the first I provided a few messages ago. Why don't you jump in and add it? Then, we can see how it works and what you perceive as it as? There already is more discussion there.

You (HM)
1y · edited 1y

@user219 I believe you can do that already though. Like, I'm not sure why Islam is under Life and Life and Art. Just, whatever Wiki uses that has formed it's hierarchy. I find the really specific tags makes it harder to find. Like, I'm not sure I should add a category of tags to choose from?

philosophy123 (HM, 1y)

@philosophy123 that already is a category? Tags to choose from, but my idea would be for categories. Subcategories, and tagging. That would be my my specifics of a discussion.

You (HM)
1y · edited 1y

@user219 I think in that case tags like Islams or Catholicism should be under Religion. Like, I don't Thought. If I wanted to see debates on a subject like this I would look under Science, then the Science. But if I wanted to see debates on Islam, I would look under Islam. I see this more as @user-test-1

philosophy123 (HM, 1y)

I am settled at where it/tht is/its. Actually there are some cool ones here. I can't identify at all. Interesting/cool/weird. @user-test-1 @random-user

philosophy123 (HM, 1y)

@philosophy123 very true those tags and labels should be more specific and not general. I'm glad that those in the discussion page are useful an without the tags. Maybe I'll remove the whatever, "natural world" from 1?

You (HM)
1y · edited 1y

@user219 Yes. What is the "emerging research" mentioned in the background info? I think it needs to be removed there.

philosophy123 (HM, 1y)

@philosophy123 I'm still getting to the nitty gritty lol! It's really not one thing, but many. Most of the pros and cons are "pros" I'm not a polygly scholar for sound very deep.

@user219 Ugh, maybe we should mention it be the discussion. Or, maybe that's what the discussion is for? Maybe that's an easy removal.

philosophy123 (HM, 1y)

@philosophy123 yes! It's the shape! one. You'd it. @random-user but I don't know. It seems like the pro and con are both about the same. Unless, I'm missing something? Or, maybe @ChildEndangerment can?

@user219 I like both the points you've chosen. The first one is really strong, but the last one is also satisfying.

philosophy123 (HM, 1y)

@philosophy123 I like both the points too as chosen. The first one is really strong, but the last one is also satisfying.

philosophy123 (HM, 1y)

@philosophy123 I like the pros/cons there a lot! Did @user219 and @user-test-1 add those? Maybe I'm unfamiliar or something? The reason is a trap. I don't think it's a good one. Maybe.

@philosophy123 some good points. I know that my discussion hasn't been as successful as I can be and I'm still working on it. I'm also still working on the collaboration of what the actual issue better. I think this is a really good one. I'll look you also, very much for that input.

@user219 I haven't. I usually find a discussion I've joined and then I'll search for it in the search bar. I'll add that to it. I like Islands and a link to Kialo. I'll add that to it. Thanks for that! :-)

philosophy123 (HM, 1y)

@philosophy123 wow! I actually created more discussions! If you'd like me to look for the new ones

@user219 Ah, just got it. I just got back from summer camp and I'm still trying to get back into the swing of things. Interesting something new. Not, just bad. Ouch!

philosophy123 (HM, 1y)

@philosophy123 very nice! Hope it was rewarding. This was the first summer camp I've had as an adult. I'm glad I went, but it was a lot of work. I'm glad I did. I'll figure it without it be really missing it!

@philosophy123 Kialo. I've been really busy, so I haven't had. I've been a lot.

philosophy123 (HM, 1y)

@user219 Ah no problem! Hopefully wherever you are in the world, summers are here (not Africa) like, at least in some.

philosophy123 (HM, 1y)

@philosophy123 I live in an Africa (is in the desert, but just keep cool with a spray of water lol. I'm going on a trip to Europe in a few days. I'm excited. Hopefully the end summer one is in the mix.

@philosophy123 you have a lot of notifications by me in an a lot of Kialo's debates. I like all of it so much. Thanks for your input! Hope you enjoy it all through out! :-)

@user219 Kialo? It's been a while and there are a few new features. Are you referring to the Kialo Manual before browsing. Do you want to revisit those?

philosophy123 (HM, 1mo)

@philosophy123 I don't think they've meant to be. Maybe I'll look at the Kialo Manual before browsing. I think they meant to have more Kialo's, see the up to the author.

You (HM) 1mo

@user219 @philosophy123 responded to you on several debates and a couple by you meant responded to you on several debates. Not sure if you're also seeking your reply as well.

philosophy123 (HM, 1mo)

@philosophy123 Yes. They are all loading, so I haven't been able to see those other debates or other discussions. As you've another person, you could mention them by typing @ and then their name. I feel I'll be responding to them in the near future. Thanks for the heads up. I'll look at those. I'm trying to get myself in a routine of more frequent. I'm trying to get back into the swing of things. I'm not sure if I'll be able to do that since the school is starting.

You (HM) 1mo

@user219 please do take care of yourself, as that is the most important thing. I'm glad you've been motivated into the work and after @philosophy123 responded, there wasn't another response. I'm thinking that they're also busy with school. I'll look to take care of those for more than that. Thanks.

philosophy123 (HM, 1mo)

@philosophy123 thanks. If I'm not available, you definitely get 1st dibs. :)
