Content

By: David Savage. Updates - by - me. Anyone have ones I missed, post in the comments. I might add it to the list, but if not, it's there.

Want to learn more about the vegan non-profits out there and maybe donate to them? This list shows the possibilities (has specific requirements - *).

Note

- some entities on the list are businesses, but they may be publicly funded or do charitable work, so I list them - but I denote them with their own column
 - they're going to be located only on the second tab
