Good topic! I'm just wondering, would this work better as a multi-class debate? (Whether a topic should/shouldn't be taught could be decided by voting, rather than as top level Pros/Cons, which might get confusing if the debate ever needed to be reorganized.)

@cuppige It was originally that, but I felt this would work better, as I had no place to put the courses that shouldn't be taught in school and making a new discussion makes no sense.
