- Pros** +
- People should be able to make money for their work.
- Cons** +
- It encourages post-scarcity, which is an ideal that the world is heading towards and should be obtained. It's not Kialo that should be abandoned, but the systems that are not as great as post-scarcity that should.
 - If Kialo gets abandoned, then something will take its place, as the world favors the free sharing of information.
 - Kialo doesn't conflict with any current economic systems, but complements them instead.
 - Just because it didn't work in the past, doesn't mean it can't work in a different setting with a different format.
