### Notes:

- I don't know every person on the planet's website to make a complete list
- if you have a personal website I missed (which is very likely), please feel free to post it
- I might add in your personal website one day, no guarantees though
- there may be organizations on this list, but some may count as personal websites if it's by one person
- comment below if there are mistakes
- I'll update this list as new info comes in
- sources: <http://towardsfreedom.com/6.html> and [brittany-bunk.weebly.com](http://brittany-bunk.weebly.com)
